PRESENTATION

“Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to display one's religion individually or collectively, in public or in private, through worship, teaching, practice and observance of rites”.

Art. 9 of the European Convention of Human Rights

As well as a place dedicated to the treatment of diseases, the hospital is also a place where patients, having to confront with precarious health conditions, feeling fragile, sometimes also need to an assistance of a spiritual nature.

From the observation of the significant increase among persons hospitalized, of members of non-Catholic religions and, thus, by the need to guarantee indiscriminately to all freedom of worship and the possibility of religious assistance, with a representative of their faith, Hospital allows to various religious ministers to assist sufferers of religious worship to which they belong during the different phases of the period of hospitalization, especially in difficult moments such as illness, suffering or mourning.

It's for this reason that the Hospital Villa Sofia-Cervello, in order to ensure an appropriate service of spiritual assistance, has prepared the brochure presented here which contains a list of the addresses of the representatives spirituals that offer a religious, moral and spiritual service to our patients.

The Management

Thursday is the day of the Eucharist.

In the Hospital Unit Vincenzo Cervello instead the Holy Mass is celebrated on weekdays at 17:30; public holidays at 11:30.
