INTRODUCTION

The “**Multilingual Guide to Healthcare Services**” of **Palermo and Catania** provides both foreigners and those who work in this field with useful information about access to the relevant outpatient centres, the National Health Service offices, and the local hospitals. The aim is to allow people living in a foreign framework (different from theirs in terms of language, culture, rules and institutions) to get supported and find their way in those healthcare services of Palermo and Catania that consider immigrants as their final users. All the bodies involved in the field of immigration and healthcare will thus be able, in the near future, to work within an official network – so as to provide foreign citizens and their families with a truly integrated care.

THE RIGHT TO HEALTHCARE IS EVERYONE’S RIGHT

Everyone is entitled to safeguarding their own health as well as claiming public healthcare. Such rights are guaranteed by the Italian law to all nationals and foreigners, whether they have a permit of stay or not.

If you are a foreign citizen and need medical treatment for yourself or a member of your family, just ask the *Servizio Sanitario Nazionale (SSN)* – the Italian National Health Service -- and you will get the treatment you need.

MIGRANTS WITH PERMIT OF STAY

This group includes the foreign citizens who have a permit of stay for the following reasons: work, family, health, political or humanitarian asylum seekers, political refugees or refugees for humanitarian reasons. If you belong to this group you can benefit from the same treatments and enjoy the same rights and obligations as Italian citizens.

Enrolment to the SSN

In order to benefit from healthcare services in Italy, **you must enrol to the SSN.**

Submit your application at the *ASP (Azienda Sanitaria Provinciale – Provincial SSN unit)* Registry office in the Municipality where you are resident or actually live, as specified in your permit of stay. Here you will be given your healthcare card.

Useful Addresses for SSN enrolment, assignment of the general practitioner and the paediatrician

SSN Registry Offices p. 30

The SSN enrolment expires on the same date as the one of the permit of stay. Upon expiry of the permit of stay, by applying for its renewal within 60 days (according to standard) you will get a six month extension of your inclusion until your permit of stay is renewed.

Which documents are required to be included in the SSN list?

- **VALID PERMIT OF STAY**

-Or, if it has expired and you have applied for the new one, the RECEIPT OF YOUR RENEWAL APPLICATION.

- Self-certification of your social security number (*CODICE FISCALE*) as issued by the Italian Revenue Office (*Agenzia delle Entrate*).
- Self-certification of your state of RESIDENCE.
-Or, if you haven't a state of residence, a declaration of the place where you actually live, or actual abode (*Effettiva Dimora*) as well as stated in your permit of stay, through the relevant form.

The healthcare card

It certifies your inclusion in the SSN list and entitles you to choose your general practitioner and the paediatrician for your children.

The General Practitioner's role

He/She can help you for any health problems and will examine you and prescribe drugs you need. He/She will prescribe for your specialist examinations, blood tests, x-rays, and hospitalizations.

The Paediatrician's role

His/Her role is the same as the general practitioner's but specifically for children. The paediatrician will follow your child's growth through regular examinations and give you advice regarding food, prevention from infectious diseases, as well as compulsory and recommended vaccination in our country.

MIGRANTS WITHOUT PERMIT OF STAY

If you are in Italy, do not have a permit of stay, and need medical treatment, you are entitled to get it from SSN hospitals and healthcare centres.

DO NOT BE AFRAID TO BE REPORTED TO THE POLICE.

Under the Italian law, medical care shall be provided to anybody without discriminations.

The staff are not supposed to ask for your ID papers or report you to the police.

The STP number

In order to get medical treatment, you must apply for the STP (*Straniero Temporaneamente Presente* – Provisionally present foreigner) number.

The STP number has 16 characters, definitely not about your personal data and therefore in no way to be considered as an ID. It is officially recognized all over Italy, has a six month validity and can be renewed. It is issued by *ASL* Registry Offices, relevant hospital outpatient units, and hospital first aid units

Declaration of Indigence

When you have received your *STP* number, you shall make a Declaration of Indigence. This allows you to benefit from medical treatment for free or partially so (i.e., with a prescription charge), as it is the case for foreigners with a permit of stay and Italian citizens.

The ENI number

In order to get medical treatment, you must apply for the ENI (*Europeo Non Identificato* – Not Identified European) number.

The ENI number has 16 characters. It is officially recognized all over Italy, has a six month validity and can be renewed had relevant hospital outpatient units, and hospital first aid units

Declaration of Indigence

When you have received your ENI number, you shall make a Declaration of Indigence. It is issued by *ASP* Registry Offices, after you have had passport and tax number copy (this last document will be given to you by the Entrance Agency offices). This allows you to benefit from medical treatment for free or partially so (i.e., with a prescription charge), as it is the case for foreigners with a permit of stay and Italian citizens.

Useful addresses to get your STP-ENI number

SSN Registry Offices p. 30

Relevant Hospital Outpatient Units p. 31

You are entitled to receive emergency treatment (that is, you cannot postpone such treatment without danger for your life or serious health damage) and essential treatment (not an emergency treatment, but one that is crucial to safeguarding your health in the future).

You can get such treatment at SSN First Aid Healthcare Centres for Migrants, hospital First Aid Units, certified public and private centres, guidance Centres, *SERT**, *DSM**, specialist healthcare centres.

Useful addresses for FREE medical examinations and prescriptions, Day-Hospitals and guidance to healthcare services

SSN first aid healthcare centres for migrants p. 31

Useful addresses for FREE examinations and prescriptions, as well as orientation to healthcare services and social workers' help

SSN outpatient centres for migrants p. 31

Useful addresses for emergencies

Hospital First Aid Units p. 32

You can also get general and, in some cases, specialist healthcare services FOR FREE at Outpatient Centres run by voluntary doctors, who will welcome you and help you through access to the public health centres for whatever treatment you may need .

Useful addresses

Outpatient centres run by voluntary doctors p. 32

SPECIAL MEASURES

They are guaranteed to women, children, and elderly people.

WOMEN

Even without a permit of stay, you are entitled to the same services as the women with a permit of stay and Italian women.

According to the law, the special measures to protect women's and children's healthcare include a certain number of services regarding prevention rather than treatment, within the wider framework of education.

Hence, a Family Guidance Centre has been set up (...) [Source: URP Azienda USL N. 6 - Palermo].

Go to the CLOSEST FAMILY GUIDANCE CENTRE for: gynecological examinations, contraception, pregnancy, documents for termination of pregnancy, family support and psychological support, menopause monitoring and vaccination for your baby.

Useful addresses

Family Guidance Centres p. 35

If you are pregnant you are entitled to a special permit of stay due to health reasons. Such document is valid all through pregnancy and the six months following childbirth.

You will be included in the SSN list and a health card will entitle you to medical treatment as well as paediatric care.

Useful addresses for obstetrics and gynecology examinations, and for breast cancer prevention

Outpatient centres for migrant women

Useful addresses to get pregnancy monitoring, including tests, childbirth care

Hospitals

CHILDREN

From 0 to 6 years old

even without a permit of stay are entitled – FOR FREE – to general and specialist examinations and treatments, as well as clinical tests and counts. Any hospital or public health centre shall provide them with the above-mentioned services.

In Italy, some vaccinations are compulsory. Just go to the closest health or vaccination centre and ask for your baby to be vaccinated.

Useful Addresses

Vaccination centres p. 38

Children aged 6 to 18 years

even without a permit of stay are entitled to general medical examinations and treatments (FREE), and specialist examinations and treatments as well as clinical tests and counts (PRESCRIPTION CHARGE ENVISAGED).

Useful Addresses

Paediatric Hospitals p. 39

ELDERLY PEOPLE

Anybody who is over 65 years old is entitled – FOR FREE – to general and specialist examinations and treatments.
